

Dogecoin (DOGE)

About:

The Dogecoin Foundation is a Colorado non-profit corporation created for and by the members of the worldwide Dogecoin community and is incorporated under the Colorado Revised Nonprofit Corporation Act.

Dogecoin is a cryptocurrency featuring a likeness of the Shiba Inu dog from the "Doge" Internet meme as its logo. Introduced as a "joke currency" on 6 December 2013, Dogecoin quickly developed its own online community and reached a capitalization of US\$60 million in January 2014.

Technology: Dogecoin is a decentralized, **peer-to-peer digital currency** that enables you to easily send money online. Think of it as "the internet currency."

Uses : One of the most popular uses for Dogecoin is "tipping" fellow internet-goers who create or share great content. Think of it as a more meaningful "like" or upvote, with real value that can be used all across the internet.

Advantages: Dogecoin is used with a wallet on your computer, your smartphone, or a website.

You can use it to buy goods and services, or trade it for other currencies (both other cryptocurrencies or traditional currency like US dollars).

Goal : Our purpose is to facilitate the continuing prosperity of Dogecoin through promotional and charitable endeavors and we seek to foster and expand the community ideals of camaraderie and playful discovery and to empower people the world over.
