

Dentacoin (DCN)

About :

Founded in March 2017, Dentacoin Foundation develops the first Blockchain solution for the global dental industry. Driven by a vast community of progressive dentists, software developers and marketing specialists, the Foundation has managed to create a new dental ecosystem which favors all industry stakeholders: patients, dentists, manufacturers, suppliers, labs, insurance companies. Through a common, industry-specific cryptocurrency Dentacoin (DCN) and several Blockchain-based software tools, all market participants are securely interconnected, empowered to efficiently exchange information and values.

Dentacoin develops the dental industry as well as creates market intelligence through a cryptocurrency reward system that inspires participation throughout the community.

Advantages :

- Higher levels of patient engagement, satisfaction and retention.
- Innovative payment option preferred by young patients - Dentacoin cryptocurrency.
- Additional regular income through incentives and monthly Assurance premiums.
- Free market knowledge through up-to-date market research data on DentaVox.
- Valuable feedback to improve upon through trusted patient reviews.
