

## **QASH (QASH)/liquid**

### **About :**

QASH is the native currency for the Quoine Liquid platform. Quoine is a global cryptocurrency firm looking to solve the liquidity problems that have surfaced with crypto investments.

Liquid is a unified, globally-sourced trading platform that bridges the worlds of fiat and crypto.

### **Advantages :**

**1) Powerful :** Grow and manage your portfolio from a single dashboard. Discover new tokens, take part in quality ICOs, study the market or trade on margin. Liquid is your platform.

**2) Seamless :** Our revolutionary World Book combines a global network of liquidity sources by leveraging Quoine's Matching Engine, Smart Order Routing, and Cross Currency Conversion Engine technologies.

**3) Accessible :** The World Book brings a whole new level of accessibility by allowing you to trade in the quote currency of your choice, with tight spreads and enhanced liquidity.

**4) Trade With Fiat And Crypto :** Liquid supports multiple fiat currencies, along with Bitcoin, Ethereum and dozens of digital assets, including established favorites and new discoveries. Liquid empowers you with trading options and access to portfolio-enhancing opportunities you won't find anywhere else.

**5) Our Commitment To Your Security :** Security is in our DNA and we are committed to keeping our exchange secure so we can ensure the safety of all our customers. We are fully compliant, Big 4 audited and regulated by the Japan Financial Services Agency.

**Roadmap :**

**2014 :** Quoine, the parent company of Liquid, was founded. Launched Quoinex, offering fiat-to-crypto trading.

**2015 :** Added new features to Quoinex, including margin trading and a mobile application.

**2016 :** Opened Quoine headquarters in Tokyo, Japan. Secured USD20 million in venture capital funding to fuel our growth.

**2017 :** Launched Qryptos, crypto-to-crypto exchange. Granted official license from the Japan Financial Services Agency. Raised the largest ICO in Asia with more than USD100 million in QASH.

**2018 :** Launched ICO Mission Control, an end-to-end technology solution that offers a safe and secure platform for token issuers and participants. Launched Liquid web application

**Goal :** Our eyes are set beyond the world of cryptocurrency. We are on our way to attain a full banking license by the end of 2019.
