

WAX (WAX)

About :

WAX is the safest and most convenient way to create, buy, sell, and trade virtual items - to anyone, anywhere in the world.

WAX is designed to serve the 400+ million online players who already collect, buy and sell in-game digital items.

Advantages :

1) Operate Your own Virtual Item Marketplace : WAX enables a new generation of virtual asset traders, similar to how earlier online marketplaces enabled entrepreneurs to become power sellers.

2) Oversee the Markets for Your Favorite Games : Start or join Guilds that self-govern and oversee transactions specifically for

your favorite game or game server, and receive rewards for your involvement.

3) Ensure Transactions are Valid and Secure : By reviewing and facilitating transactions, WAX members can earn significant fees. With more fees earned, there will be more tokens available for using and accessing the entire ecosystem.

4) Get Rewarded for Your Marketplace Expertise : WAX members familiar with assets and pricing for their favorite games can offer appraisal services to marketplaces in need of valuation and verification services.

Make and Sell Your Own Items : Entrepreneurial designers and makers will be able to create virtual assets and offer them for sale in their individual marketplaces.
