Waltonchain (WTC)

About :

Waltonchain (or WTC for short) is a genuine, trustworthy and traceable business ecosystem with complete data sharing and absolute information transparency. It is created through a combination of the RFID and blockchain technologies, which pushes forward the blockchain + the Internet of Things integration.

Advantages :

1) High security

2) It is possible to truly trace quality problems and products back to their source

3) It is possible to achieve anti-counterfeiting

4) Trusted decentralization

5) Reduced labor costs

Goal : To create a business ecosystem integrating blockchain with IoT.
